GATECRASHING OPS

You're good friends with Jinx; she's comfortable with your strangeness. You respect Shrike professionally, but she's kind of intense on a personal level. Astika is less experienced, but competent and chill.

This pictograph clearly indicates that those pretty butterfly-bird things like to implant parasitic eggs in their victims' scalps, so we might want to check your head again.

You are part Canadian settler, part First Nations Iroquois. You studied biology and ecology in school, but things were bad on Earth, however, so you signed up with an argonaut colony on Europa to study the life found in its subcrustal ocean. You watched the Fall from afar. When the gates were discovered, you couldn't resist the lure of alien life and new worlds. Sometime after your twentieth mission, the gates started whispering to you. You also developed interesting abilities and urges. On one exoplanet, this helped you identify a new alien creature as an exsurgent before things got nasty, which led to a recruitment visit from Firewall.
