FIREWALL RIMWARD OPS

Zahiri is poetry in a fight, and you admire their quest for self-improvement. Killjoy's eye is sharper than yours, but the scars from her youth are palpable. Chi is clever, too clever, and you hope it doesn't undo them.

Your security AI can't find me; your gun-flies can't catch me.

I'll pluck your eye out, shiftless sysop; you can't outfly a bird who's all-thought.

You were hatched in a Titanian aviary, part of a Science Ministry uplift project. On adulthood, you ditched your body for virtual space. With your skills flying ships and running infosec, someone always gives you server space. You like the human myths of trickster ravens and prefer misdirection to brute force. Firewall recruited you through Magnus Ming, your

favorite professor at Titan Autonomous University before you got bored and left. When he offered membership in "a society that tackles challenging puzzles," you jumped at the chance. Firewall hasn't disappointed. It's weird, dangerous, and best of all, a challenge.
