CRIMINAL GUANXI OPS

Amaru acts real posh for a gangsta, but his connections bring in the jobs.  
Pivo is your best bud, and you respect their advice a lot. Elis is not only good at making you drones, but super fun at parties.

I know humans well enough to tell that you're a jagoff. Come at me, meat-drizzle!

You were instantiated from the Transfinity codeline, a prominent and very fancy clan of AGIs based on Titan. One of your relatives is head of a ministry or something. Whatever, Titan is fucking boring. You don't want to crunch code and build up social capital and crap like that. You want to leap over things and shout fuck and shoot stuff. You're into corporeality big time, and being a loud-mouthed, boss, beast-killer robot is the funnest. You and Pivo were selling some TITAN loot when Firewall caught you and convinced you to be sentinels. Now you still enjoy the criminal lifestyle, but you fight cosmic horror, too. Badass.
